Fyi Mark. Fyi all, the business policy in the records center is that for SEMS AR collections prior to 2005, recent attorney review is required prior to releasing ARs to the public (or any requestor). Sparing the details of how this came to be, this is a prudent measure that all the stakeholder R8 offices agreed on several years ago.

Subject: VB/I-70 Public Requester

The Records Center just received a call from a member of the public, Joan Seeman, who was interested in documents related to the Vasquez Blvd/I-70 OU01 delisting. She said she was not finding all the documents that were likely related to the action by following the link that was put out. She was further interested in seeing an index for OU01, more specifically, it's AR. I informed her that as contractors, requests for documents came through EPA, and went through EPA on the way to the public. She was anxious that someone contact her as soon as possible, so that she would have time to comment before the window closed.

Joan Seeman,  Ex. 6 Personal Privacy (PP)

Please let Rodney Vargas and myself know if there are any documents that need to be addressed by the Records Center.
